

Campus Transfer Form

SCHOOL OF
PUBLIC HEALTH

University of Medicine & Dentistry of New Jersey

Once an applicant accepts an admissions offer from a Campus, and enrolls, that student is considered to be a student on that Campus. School of Public Health students may take courses on any of the School of Public Health campuses without the need to transfer.

If a student wishes to officially transfer to a different School of Public Health campus, they must make a request, in writing, to the Campus Department Chair where they would like to transfer with a copy to current Department Chair and both campus offices. The Campus Department Chair will review the student's original admissions file as well as the student's School of Public Health transcript in order to make a decision regarding the transfer request. Requests for Campus transfers may not be made until a student spends at least one semester on the Campus where they were originally accepted.

This form must be submitted to the Campus student wishes to attend.

Name of Student _____

Student SSN/ID# _____

Semester Transfer to take Effect: Fall _____ Year _____ Spring _____ Year _____

Campus of Origin: (circle one) Newark Piscataway/New Brunswick Stratford

Campus to which Student is requesting to be transferred : (circle one)
